

ENTRY REQUIREMENTS FOR THE MASTER'S DEGREE STUDY AT FBERG, THE TECHNICAL UNIVERSITY OF KOŠICE FOR THE ACADEMIC YEAR OF 2019/2020

In accordance with § 56, § 57 and § 58 of Act no. 131/2002 Coll. on Higher Education Institutions and on amendments to certain laws as amended, and in accordance with the Order of the Regulations concerning the admission procedure of the Technical University of Košice (Annex No. 1 of the Statute of the Technical University of Košice) the *admission procedure* for master's degree studies at the FBERG of the Technical University of Košice in the academic year 2019 / 2020 will be governed by the following guidelines:

Length of study: 2 years in a full-time daily form

3 years in a part-time external form

The method of selecting the applicants:

The selection of candidates for study is performed on the basis of their placement in the qualifying rankings created on the score basis. The score assessment will be based on the results of the state examinations.

The selection will be carried out for each study program separately.

The score assessment of the applicants:

The average is calculated from the results of the state examinations of the completed bachelor's degree study, multiplied by 100 (e.g. the average of 1.50 complies with 150 points).

The qualifying ranking will be organised in an ascending manner - the applicants with the lowest number of points will be ranked as the best ones.

Other provisions, guidelines and organizational instructions:

Application deadline: **March 31, 2019**

Admission Committee Meeting Date – decision of admission: **June 19, 2019**

Only one study program per application is allowed.

The results of the admission procedure will be published within 3 days after the conclusion by the FBERG Admission Board on the Faculty's website.

Required documents:

- a) the receipt of a completed and signed *application form* in person or by mail (postmark date) to the study department (health certificate not required),
- b) a copy of the *state examination certificate* and *diploma* (FBERG bachelor's study graduates do not need a certified copy),
- c) *proof of payment* of the handling fee.

Admission procedure fee:

Paper application form: 30 €

Electronic application form: 20 €

The application form for all study programs is in an electronic form without guaranteed electronic signature authentication, using an information system that allows the applicant for study to verify their registration in the information system from the date of submission until the end of the admission procedure. In the application, the applicant is obliged to provide the information required by § 58 par. 3 of the Act, while the application cannot be filed without the submission of all the data. The applicant may also submit a written application using the form prescribed by the Ministry of Education, Science, Research and Sports of the Slovak Republic.

Bank: **Štátna pokladnica Bratislava**

In the academic year 2019/2020 we plan to open **14** master's degree programs in both full-time internal and part-time external forms.

Both forms of study may be performed by the following methods:

- classroom study
- distance study
- combined

The list of study programs in the full-time internal (free of charge) and part-time external (paid) form of the master's degree study along with the planned number of students is shown in Table 1.

Table 1 List of offered study programs in the full-time internal and part-time external form of master's degree study for the academic year 2019/2020

No.	Study program	Minimum planned No. of accepted students	
		full-time	part-time
1.	Transport Logistics of Enterprise	30	10
2.	Geological Engineering	10	10
3.	Geotourism	30	10
4.	Informatization of Processes of Raw Materials Extraction and Processing	10	10
5.	Geodesy and Land Register	20	10
6.	Management of Earth's Resources	20	10
7.	Mineralurgy and Environmental Technologies	10	10
8.	Commercial Logistics	20	10
9.	Quality Control of Processes of Raw Materials Extraction and Processing	10	10
10.	Process Control of Raw Materials Extraction and Processing	10	10
11.	Technologies of Mining and Tunnelling	10	10
12.	Technologies in Oil and Gas Industry	10	10
13.	Use of Alternative Energy Resources	20	10
14.	Rescue, Fire and Safety Technics	20	10
